S — STRENGTHS

- Gamified tourism experience (missions, checkpoints, rewards).
- Discovery of hidden and non-touristic locations.
- AI-based recommendations with offline support.
- High user engagement & retention.
- Works for solo & group experiences.

W — WEAKNESSES

- Complex system to build & maintain.
- Needs accurate and updated data.
- Depends on user adoption.
- Gamification not for all users.
- Limited rewards without partnerships.

O — OPPORTUNITIES

- Growing tourism in Egypt.
- Demand for unique travel experiences.
- Few competitors combining game & travel.
- Partnerships with local businesses.
- Expansion to other countries.

T — THREATS

- Strong competition from global and local tourism apps.
- Data security and payment trust issues.
- Users may prefer traditional apps.
- Technical issues (GPS, performance).
- Economic impact on tourism.
